

OUTLAW CHARITY REGATTA

Sponsored by Members of Windycrest Sailing Club

Date: September 1, 2025 - In Conjunction with the Labor Day LDR

A Charity Regatta is being planned for 2025. Our Club has a forty-five year history of a continuous charity event. After years of great causes, great people, and great contributions, it would be a shame to let this tradition die. As the event cycles through, we're planning a minimal hassle event as we re-charge, but we keep our tradition alive.

It's time to invest in ourselves, so this year our cause is the Windycrest Training Programs. We should work to re-invent our training programs for juniors and adults for the next generation to come. For now, the event will be small. But it is a start. Let's see what we can grow. True, it is not a taxable deduction yet, that can come later. So we start here, and solicit the support and generosity of Windycrest.

Goals include developing and financing a pathway to better training, retainment of new sailors, and introduction to our sport of others outside of our membership. We re-envision how we support our new and established junior and adult sailors, upgrades to training and coaches boats, sails, sailing equipment, and future training events. It could include dock repair, US Sailing PRO and Instructor training, coaches, and course materials. For now, money collected will go into a restricted Windycrest account with these goals in mind.
